INVESTMENTS New York, Feb. 5.—After a narrow, irregular movement in the early part of the day, the stock market became dull on a level not far removed from Saturday's close. Trading was too listless thereafter to affect prices materially. Pirst quotations were higher, and brokers active in the large that most that most active in the large trade.

terially. First quotations were higher, and brokers active in the buying said that most of the advances then made were on moderate purchases from London and the execution of a few orders which had reached commission houses over Sunday. Outside business, however, was very small, and when the orders on hand at the opening had been filled the list eased off. Union Pacific, Reading, Lehigh Valley and United States Steel reacted a point or so, but losses were soon made up, and at the end of the day changes in most cases were nominal.

From the standpoint of the speaulator the market aituation was unchanged, no important new influences having been brought to bear over the week end or during the day. The bear campaign of last week having failed to enlist outside support, professional traders were less willing to operate on the short side of the market. Speculative opinion remained bearish, but it was thought that covering after last week's movement had not been carried far snough to remove the danger of overselling the market.

A few of the less active issues moved more widely than the standard stocks. Some tobacce issues were weak. American Souff 6 8-4. Distillers Securities stocks and bonds were unusually active at decilining prices. The stock lost 3 1-4 and the bonds 2 1-2. Third Avenue sold off 2 3-4. Weakness of this stock was traced to the effect of the ruling of the public service commission in regard to arrangements for the sinking fund and depreciation charges in connection with the approval of the bond issues provided for in the reorganization of the company. The Canadian stocks were strong, in response to a further increase in Canadian Pacific's gross samings and a gain of 323,000 in the net earnings for December of Minneapolis, St. Paul and Sauk Ste Maris. Missouri Pacific's December showing of a gain of 3431,000 in the net earnings for December of Minneapolis, St. Paul and sub the fact that time money rates to day were slightly easier. im Albert, New York was greatly afected with the running fever, and

For some time after the race won by Jim Albert, New York was greatly affected with the running fever, and in unnerous matches and races were decided in New York and vicinity. The American Institute, a building nearity as large as Madison Square Garden, was used for various purposes, many races and sporting events being held there. During the month of February, 1883, it was tensed by a first of horse dealers, who used it to exhibit and sell their horse, it contained a good eight-lap dirt track.

Here I trained for the 24 hour race to be held at Hoboken, N. J., March 14 and was in fine condition when one day during the last week of February, Albert Khrone, a sporting man, at who conducted a market on Third are must came to see me and said there was a runner in South Brooklyn, and the Heroaltyn named Kherman, whose friends would back him to run any man in New York, unfailed of Delancy or Hegelman, for 1400 or more. He said as friend named John Reardon of South Brooklyn hald told him a few days before that if he had a man who could run five miles in less than 25 minutes he could make him some money. He told me if I dould show him better the saloon where we understoed Kiernan is minutes he could make him some money. He told me if I dould show him better the saloon was beinded the bar when we entered the saloon, and khrone invited him to join us in a first the salouten for the deep the saloon was beinded the saloon and khrone invited him to join us in a first was his helper, who was himself as Mr. Khrone, a Washington Market. As Khrone paid for the drinks from a large roll of bills which he purposely displayed, the saloutesper's eyes glistened and he said:

Russian Text-Book Shows Curious In stance of Tampering With French History.

Reasons of church, state or other policy have frequently caused the plars of one country to tamper with history of another with which it been intimately connected. A curious instance of such a distortion of French history was that found in a Russian textbook, used in all Russian public schools, and edited by a great Russian scholar, Hovalski. For Chilblains, Frost-Bites And All Sore Feet

Many persons dread the approach of winter on account of chilbiains and trost-bits which causes a soreness and Rohing at times almost unbearable, frequently bringing on a nervous condition. To those affilicted the following treatment will be welcome information, as it gives immediate relief and soon cures. "Dissoive two tablespoonfuls of Calcelds compound in a basin of warm water (not hot). Soak the feet in this for fifteen minutes. Respect this for several nights until the trouble disappaars."

The action of Calcelds compound for all foot pliments is really remarkable. By its use corns and calcuses can be peeled right off. Sweaty, smelly feet and lender, aching feet need but a few applications. Busions get relief instantly. Any drugglet has it in stock a twenty-five cont package is mainly sufficient to put the worst feet in fine condition.
